# 8 WAYS TO EAT TO SAVE THE PLANET

## LAST UPDATES

We are delighted to share with you an exciting initiative carried out within the framework of the "8 Ways to Eat to Save the Planet" project. In a unique collaboration among several participating schools, we have launched a series of plays designed to raise awareness about the importance of adopting sustainable eating habits for both our health and the planet's.

**Inspiration and Preparation**

Each participating school has worked diligently to create a performance that not only entertains but also educates. With the support of their teachers and coordinators, students have researched and developed scripts that highlight the relevance of healthy eating and its impact on the environment. This creative process has allowed students to deeply explore and understand the interconnection between our eating habits and planetary health.

**The Plays**

The theatrical performances have ranged from emotional dramas to light comedies, each offering a unique perspective on the topic. Through memorable characters and captivating narratives, the students have managed to convey powerful messages about how small changes in our diet can significantly contribute to environmental sustainability.
Iminder that we all have a role to play in protecting our planet.

# THEATRICAL PLAYS

**Impact and Reception**

The audience response has been exceptionally positive. Parents, teachers, and other students have expressed their admiration not only for the quality of the performances but also for the young actors' ability to communicate such important issues. These plays have served as a poignant reminder that we all have a role to play in protecting our planet.

Thank you all for your support and enthusiasm. We will continue to keep you informed about future activities and projects that reinforce our mission to educate and act for a healthier and more sustainable planet.
